

Mergence

POLA's skincare for Men, Mergence

Catches all signs of aging of men!

Changes in odor & Changes in complexion

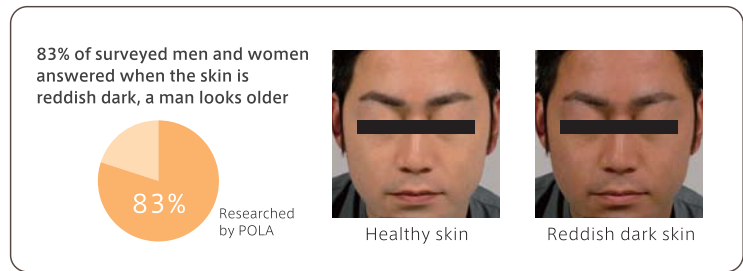

Changes in "odor" and "complexion" are the two main causes to make one older!

ODOR The cause of odor which men are concerned with

In general, men secrete more sweat and sebum than women. Breakdown and oxidation of fat create distinct odor. This is one of the odors related to that distinct "odor due to aging".

SKIN How old one looks depends on how reddish dark the skin is!?

POLA has found that it is complexion change in the skin that makes men looking older. As one gets older and the skin becomes reddish dark, he can be seen to be older than his actual age.

👉 The reason why the skin becomes darkish red

The barrier function of a man's skin is much lower than a woman's due to daily shaving and lack of daily skincare. This leads to dryness and inflammation of the skin as well as a decrease in the natural brightness of the skin. As a result, the skin starts to have a reddish dark look.

Fragrance

A fragrance series which suppresses odor generated from sweat and sebum. It leaves a light fresh scent.

Mergence Quick Shower Gel
500 mL 16.8 Fl. Oz.

Removes odors with simple hand application and rinsing.

● Directions
Apply appropriate amount onto wet body and massage gently. Can also be used by lathering with wet sponge or towel.

Mergence Deodorant Body Mist
100 mL 3.3 Fl. Oz.

Prevents body odors. Formulated with moisturizing ingredients for any dry areas.

● Directions
Mist directly onto areas with odor concern. The appropriate amount is 2-3 pumps per area.

Mergence Eau de toilette
30 mL 1.0 Fl. Oz.

Citrus marine fragrance which lasts long and does not mix with odor of sweat.

● Directions
Spray an appropriate amount to the pulse points. (Wrists, behind the ears etc.)

Skincare

A skincare series which helps create healthy and ageless looking skin.

Mergence Conditioning Wash
180 mL 6.0 Fl. Oz.

A self foaming wash which deeply cleanses impurities while protecting skin moisture

● Directions
Dispense 2-3 pumps, massage over wet face then rinse thoroughly.

Mergence Multi Conditioning Gel
120 mL 4.0 Fl. Oz.

A multifunctional gel type toner. Moisturizes the skin thoroughly yet leaves the surface of the skin smooth.

● Directions
Use after washing face. Dispense 1-2 pumps and apply on the entire face.

Mergence Skin Protector
SPF20·PA++
60 g NET WT. 2.1 Oz.

Protects the skin from both UV rays and dryness. Spread well and isn't sticky.

● Directions
Spread appropriate amount over the entire face and body (arms, neck, etc.)

“Mergence” detects changes in odor and skin.

Changes in odor

“Neutral”, a scent with deodorizing ability

“Neutral” is a unique scent with two functions; consumes odor and flavors, created with patented skills of a famous French perfumery named ROBERTET. It is not only leaves a refreshing scent behind but also reacts with odor and works to erase it. POLA is the first in the world to incorporate this scent into a skincare product.

A citrus scent favored by women

Mergence was developed based on what scent women wish men close around them to use. Working with a perfume specialist Michèle Saramito, we succeeded in creating a citrus scent with an additional note of refreshing marine, clean and approachable.

Changes in complexion

Dealing directly with the cause behind reddish dark skin.

We focused not only the most common skin concerns of men such as oiliness and flakiness, but also on the changes of skin complexion. The decrease of barrier function is the main cause of the reddish dark skin, which makes the face looks old. The skin will be youthful and clean looking skin with Mergence.
